## MINING

Remember that the MIFU universe will be created with your digs!  
Collectors need you!

## COLLECTOR

You may not have time! But build your sets with items from the diggers. Earn money by building the universe!

## COMPLETE THE UNIVERSE

IT'S A TEAM WORK!

**THIS IS NOT A GAME! THE UNIVERSE WILL BE CREATED BY TEAMWORK.!**

# MINING PROCESS

System registrations are made either by downloading our Google Play Store and App Store mobile application or creating a profile on Windows/Mac OS. That allows you to access the item digging process designed for the universe from the user interface special for you. The digging system enables you to find various inventory and items depending on factors such as time spent, internet speed, VPN and proxy system, location, etc. These items and inventories appears in the universe store in 4 groups as Mysterious, Special, Rare, and Normal. According to the characteristics of each of these items, the token values will take a value in the MIFU Token Market, which is listed instantly. Each scraped item and inventory is a set piece. When the sets are completed, the set value will naturally increase. You will be able to sell these items to Collectors or directly to the store and instantly earn profit from your cold wallet. You can exchange or sell among yourself. In addition, you will earn extra items, inventory, and MIFU Tokens from the Digging Event, Mission, Reference, and Airdrop systems. Our users who carries out diggin do not need to make any investments. However, as much as his investment (as much as the token he received) will be loaded into the random set item and inventory account where he/she will be able to trade tokens on stock market listings. Each digger can join any collector team if he/she wishes and has an additional percentage rate at the entrance according to the scale system of the team he/she is included in.

# COLLECTOR

The picker will automatically have as many random set items as the token he has registered in the system.

Pickers will earn 3% tokens from each collector (investor) they add to their team with a ref code in the turnstile system. For every 50 people included in the Picker team, 5% of the team will earn extra Tokens equal to the inventory and the number of sets. New pickers must be notified via the system (from [www.mifutoken.com](http://www.mifutoken.com)) with the reference code or at the time registering the PICKER to our MIFU TOKEN applications. Gatherers can purchase items and inventory to complete their sets from the system market, any digger user, or the MIFU market. They can trade from teammates or digger users. They can obtain tokens by selling their sets or items and inventory to the MIFU Store. Note: The sets and items of the collectors who do not enter the system for more than 40 days will be automatically withdrawn to the MIFU market by the system and will be transferred to their cold wallet equal to the MIFU Token exchange value of that day.

\*\*If the Picker (Investor) does not register and report the MIFU Tokens he has bought on any listed exchange in our system or through our mobile application, it will not be valid, and he will not be able to form a team or get a digger.

# MIFU DEAL PROGRAM

MIFU DEAL Program MIFU Prize Distribution System: Anyone who buys a MIFU token is free to sell it if they earn enough returns. This cannot be prevented. However, special systems are developed for MIFU token holders.

MIFU token holders will be rewarded on an ongoing basis.

MIFU DEAL: Once in 90 days, the MIFU token grand prize distribution system is activated. According to this project, which we call MIFU DEAL, every wallet with XXXX amount or more of MIFU tokens attends a lottery once every 90 days. The 1% cut from MIFU token sales is transferred to the team wallet and remains there. 80% amount is used in project development work. The remaining is distributed equally to 30 wallets through the MIFU DEAL prize distribution system, which is drawn every 90 days between those who carry XXXX amount and more MIFU tokens. The draw is made transparently and shared in the MIFU Economy section.
